

Digital design assistant

The company

Brainstorm communications are a creative communications agency. We conceptualise and deliver outstanding creative communications for International brands and world-class companies.

Our portfolio of services includes: Digital, Live Events, Film and Video, Design, and Print.

The role

We are looking for a motivated and bright individual to join us as our digital design assistant. The role involves assisting in the creation of digital projects and generally supporting the production team with a variety of design & technical tasks.

The person

We need a multi-skilled person with strong technical abilities who's interested all areas of digital media with a good knowledge of Photoshop, HTML /Flash and an understanding of Actionscript. They must work well under pressure and will have a full driving licence and own transport.

The job is a great opportunity for gaining further experience in an exciting industry.

Freelance 3D & 2D motion graphics designers

We are looking for experienced, talented 3D and 2D Designers who are proficient in After Effects and Maya for future freelance work.

If you have the skills and experience please email your CV and your showreel. We are interested in people living in the Greater London area but who are happy to come out to the Maidenhead area for meetings and can work from our office if required.

Therefore your own car is essential.

Please email your CV to jessb@brainstorm-uk.com
